What Are Patients Saying?

"Thank you for an amazing first energy healing experience! I met with Kamil and he was very friendly and welcoming. I found it easy to settle in and open up about why I was there that day. Although my pain was residing in my lower back and hips, after reading my chakras, he started working where they felt closed or blocked. There was so much tension and many tight knots hidden nearby. This relieved the strain in the rest of my body and since I was no longer compensating, the pressure was lifted. Kamil was patient and took his time to work out the knots and was successful. My session was truly a perfect balance of healing mind, body & spirit." — J.C.

"Kamil illustrates different types of strengths that reside within each of us, and how we can access them when we need to change what no longer fits in our lives. He awakens the desire to identify with our own spirituality, and explore, recognize and initiate within ourselves that, which will bring us happiness." — G.H.

"Kamil is a miracle-worker." — V.T.
